PREFACE AND ACKNOWLEDGEMENT

The first edition of the Quarterly Digest of International Merchandise Trade Statistics (IMTS) for the year 2016 presents statistics on Ghana's Merchandise Trade for the first quarter of the year under review.

The Quarterly Digest aims at bridging the data gap by providing monthly and quarterly import and export data to enhance the investment drive of the country.

This publication contains a wide range of current Trade Statistics of Ghana to provide users with information on imports and exports to facilitate planning and decision making. Monthly and quarterly data are presented for the previous and current year. The content of the quarterly digest includes quarterly balance of trade, imports and exports to/from ECOWAS state, world economic blocs and major trading partners. The quarterly digest will be reviewed on a continuous basis and additional data series of interest will be included as and when appropriate.

The quarterly digest can be accessed on the Ghana Statistical Service (GSS) website, www.statsghana.gov.gh. For users who have specific data needs, the Trade Statistics Section of the Service could offer the necessary assistance.

The Ghana Statistical Service wishes to express its profound gratitude to the Customs Division of the Ghana Revenue Authority (GRA) and the Ghana Community Network Service Limited (GCNet) for making available the necessary data for the compilation of the International Merchandise Trade Statistics.

We hope that users will find this digest useful.

Dr. Philomena Nyarko
Government Statistician
