VERSION DESCRIPTION

version 1.0: This is the data and report from the Job Tracking Survey. The tables generated were used in the preparation of the final report.

PRODUCTION DATE

2008-08-06

Overview

ABSTRACT

The Job Tracking Survey was conducted to provide credible data for effective monitoring and evaluation of job creation programmes being implemented by the Government. These data were to be used to monitor the progress of the Poverty Reduction Strategies (PRS) and the Millennium Development Goals (MDGs). The Growth and Poverty Reduction Programme (GPRP) in Ghana provides a coordinated programme for achieving sectoral, national and international development outcomes including the MDGs. Unemployment remains a critical challenge in efforts at reducing poverty. Policy orientation in 2006 was therefore towards providing various incentives for firms to invest productively, create jobs and expand. Thus the theme: Investing in People, Investing in Jobs.

The survey targeted firms which are the main source of information on the creation of jobs. The study collected information background of the firms, including the type of operation and ownership. It also collected information on the knowledge and access to various tax incentives granted to the different sectors of the economy and how these have helped the firms in their expansion programmes towards the creation of jobs.

Several indicators including jobs created, job losses, training (both on the job and formal) and level of skills were also collected. Finally, the survey evaluates the impact of the National Youth Employment Programme (NYEP), labour market demand and job vacancies, job quality and related labour market issues.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Establishments

Scope

NOTES

The survey covered establishments in both the public and private sector. For the private sector, it covered all formal establishments particularly, members of the Association of Ghana Industries (AGI),

Ghana Association of Consultants (GAC), Ghana Hoteliers Association (GHA), Ghana National Chamber of Commerce and Industry (GNCCI) and the Ghana Chamber of Mines. The 100 establishments forming the Ghana Club 100 and those listed on the Ghana Stock Exchange (GSE) were also covered.

A number of construction sites were also visited to collect information on persons engaged since January 2006.

The survey covered all sectors of the economy under the broad headings Agriculture, Industry and Services.

Sampling

Sampling Procedure

Sampling for the survey was purposive, and was designed to provide sufficient level of precision for survey estimates for each 3-digit ISIC (International Standard Industrial Classification of economic activities) domain.

A total of 2,015 establishments in both the private and public sector were covered in the survey. These were made up of 784 from the public sector, made up of 701 public sector institutions in the Ministries, Departments and Agencies, and other public institutions in the 138 Metropolitan, Municipal and District Assemblies. All establishments operating under the President's Special Initiatives (PSIs) were also covered. In addition, 83 public limited companies were covered.

For the private sector, all members of the Association of Ghana Industries (AGI), members of the Ghana Club 100, and establishments listed on the Ghana Stock Exchange were covered in the survey.

Response Rate

All the 2,015 establishments selected in both the private and public sector were covered in the survey.

Questionnaires

Overview

One questionnaire, the Job Tracking Survey Questionnaire was used. The questionnaire was organized in 11 parts (A - K) and the questions were in English.

Part A was used to collect information on the background of the establishments including Name, Address, Type of Ownership, Organization and Goods and Services produced.

Part B looked at the establishment's connection with any Policy Objectives and Outcomes within the various sectors.

Part C looked the creation of jobs and hiring of personnel.

Part D was devoted to awareness and access to Tax Incentives.

Part E dealt with On-The -Job-Training, Internship and Industrial attachment, while Part F sought for information on Micro-finance, Loans and Grants.

Part G was devoted to outcomes under the National Youth Employment Programme.

Part H collected information on the creation of jobs within the Construction sector.

Parts I and J were used to solicit information on Labour Market Demand and Job Vacancies, Job Quality and other labour market indicators.

Part K sought for comments and suggestions for the preparation of the 2007 national budget.

Data Collection

Data Collection Dates

Start	End	Cycle
2006-09-25		N/A

Data Collection Mode

Face-to-face [f2f]

DATA COLLECTION NOTES

A two-day training programme was organized for 170 field enumerators and ten Regional Statisticians who served as Supervisors.

The questionnaire had earlier been piloted by selected Statistical Service staff and reviewed.

Data Collectors

Name	Abbreviation	Affiliation
Ghana Statistical Service	GSS	Office of the President

SUPERVISION

The ten Regional Statisticians served as field supervisors during the period of the survey.

In addition, personnel from the GSS head office paid visits to the teams to assess the level of completion of the questionnaires.

Data Processing

Data Editing

The GSS data editing occurs at three levels:

1. Field editing by interviewers and supervisors
2. Office editing
3. Data cleaning and imputation

Other Processing

The data capture at GSS takes the following forms:

1. Manual data entry
2. Scanning

Data editing of the captured data usually consists of:

1. Verification or double entry
2. Consistency checks
3. Structure edits
4. Quality Control

Data Appraisal

File Description

Variable List

Background of Establishments

Content	This section provides information on the name of the establishment, location and contact address. It also provides information on the type of ownership, type of organization (sole proprietorship, partnership, etc.) and the main goods and services produced.
Cases	1937
Variable(s)	33
Structure	Type: relational Key(s): qid(Questionnaire number)
Version	version 1.0
Producer	Ghana Statistical Service (GSS)
Missing Data	Prior to 2008, missing data and not applicable data were left as blank. These values were not differentiated. The current policy is to identify the missing data as follows: -a coded value would be composed of 9s such that the entire length of the field is filled. For example a code of '999' would be used for a missing field of three characters. -not applicable or skipped variables are left blank

Variables

ID	Name	Label	Type	Format	Question
V1	qid	Questionnaire number	contin	numeric
